COVER LETTER

I graduated in June 2022 with a Bachelor's degree in Graphic Design and have been actively engaged in the field of pictorial art since then. I've been interested in design and art for over 10 years, working as a designer for about 5 years, both on personal projects and as a freelance contributor.

Angel Desoto

@angeldesoto_ info@angeldesoto.com

+34 660600378

I possess strong social skills, enthusiasm, and innovation, always seeking new challenges to facilitate ongoing learning. **Comfort zones are not for me.** Since completing school, I've progressively moved to larger cities to evolve as both a designer and an individual. This is why **I recently decided to take the leap and relocate to Berlin to embark on a new adventure.**

Over the past years, I've worked on projects as a graphic and audiovisual creative, and also as a community manager for **Ink and Movement** (an agency specializing in contemporary artist management), collaborating with artists like **Okuda San Miguel, Misterpiro, Spock, and Sabek**. All of this unfolded physically within the **Factory of Dream** (a space for creation, management, and promotion of contemporary art founded by Okuda San Miguel), which also houses the offices of Ink and Movement, as well as the headquarters of the Coloring the World Foundation

I'm hopeful for the opportunity to contribute my skills and passion to your organization and continue growing in the field of graphic design.
Thank you for considering my application.
